

Episode 1 – Delia video diary Transcript

There's quite a few big personalities in our group; at the moment I don't really feel comfortable challenging them. Especially Shireen, because she's a little bit bossy. But I know it's just because she wants us to get a good mark, which is fair enough. And I get the impression that she's probably done quite a lot of group work before, and she thinks she knows the best way to do it. The only problem is, she needs to let us make decisions as a *group*, instead of telling us what to do.

Vikki's nice. She includes everyone, and she's quite creative; and she agrees with me about the leader thing, because I think it's ridiculous to have a leader at our age. The only problem with her is, I think she's more worried about the group getting on as a whole rather than the final presentation mark, and I really wanna get a good grade.

Muzz is nice. He's like me, he's quite quiet; just takes it in, and says something when it needs to be said. I think he might start to irritate Rob a little bit though, because sometimes he needs things repeating, just a few times, so that he gets the gist, and I could see Rob getting a little bit irritated with him already today.

I'm really not sure about Rob. He could be ok, but he's obviously only here because he has to be. And him and Shireen are definitely gonna clash a little bit. I just hope they don't have a bit argument, because that's gonna make it so much more difficult for the rest of the group.

I think my role's probably gonna be writing the presentation, because I like that *much* more than actually standing up and speaking. If we all try hard, I think we could get quite a good mark.
