

Vikki – Episode 1 video diary Transcript

First impressions....I don't feel comfortable talking about the others. I think *I* made a good impression: well I hope I did! Although I could have been a bit more organised at the start and suggested we make an agenda right at the beginning.

I've been in a group before and it was horrible! Everybody argued, and we didn't make decisions as a group, so I really don't want that to happen again. I'm gonna try and make sure we get on well together as a team, and that we make decisions together as a team.

We're all pretty clever, so we should do this project really well. We've only met once, so it's hard to say how I think the others will contribute, but we've just got to remember to communicate, and to make sure we draw on all our strengths. Like Shireen: she's really focused and really committed, and I think she'll keep us moving really well.

And Muzz has loads of ideas for the content, and he seems to be really keen on making notes, so I'm sure he'll record everything that we do.

Delia seems really thoughtful, and I'm sure she'll be really good at helping us to put the presentation together and making sure that it's all relevant; you know, all the content's relevant. And Rob; well, he's really funny, and he keeps everything relaxed. I think he's capable of more than he lets on, but he's playing it a bit cool. But on the whole, I think we're a good team and we'll work well together.
